GT

INTRODUCTION

The new McLaren GT reimagines the Grand Tourer – making the established traditions obsolete through pioneering McLaren design and engineering.

Elegant, beautiful and lighter than any competitor, the new McLaren GT is tailor-made for epic journeys in modern luxury. Engineered with continent-crossing capability. And to deliver an engaging yet comfortable ride. It has plenty of luggage space. A cutting edge infotainment system. And an interior defined by contemporary materials, light and space.

But McLaren DNA shapes it too. Relentless power, class-beating acceleration and pure driver engagement run deep through its bespoke carbon fibre structure. The Grand Tour will never be the same again.
